

# Staunton River State Park Cabin Renovations

We are renovating our historic Civilian Conservation Corps cabins beginning the fall of 2019. We wanted to make sure that our guests were aware of the project and that it may impact their stay in cabins that are not being worked on.

There will not be work on the weekends, but during the week, you may see and hear evidence of the renovations. The list below will give you an idea of the kind of work we will be doing. The ADA renovations to cabin 1 will involve constructing an addition to the cabin so that will likely involve the most disturbance.

Additionally, there is always a possibility that the projects will not be completed as scheduled but we will work to accommodate all in
